

READsquared

2023 Summer Reading Log

As in previous years, you are able log your reading minutes online through the READsquared software.

You may use a computer or download the free app on both iOS and Android mobile devices.

1. Go to <https://freemanlibrary.readsquared.com> or to the app store to download the app.
2. Click on **Register** in the upper right-hand corner to create your account, **or** login if you already have a READsquared account.
3. Parents, please create an account for yourself and your family by clicking on the “Myself + Other Readers” button. Register the adult first, then the children. The parent needs a user name and password, the children do not.
4. Fill in the information requested for each person you are registering.
5. Make sure to write down your user name and password. The library staff will not have access to your login information.
6. Once you are registered you can sign into your account.
7. Log your reading minutes to earn virtual badges and track the tickets and incentives you earn!
8. You will be able to go in and retroactively enter minutes read, so if you only log in once a week, you can record minutes read for each day of that week.
9. The logging dates run from June 12 – July 19. Be sure to enter all your minutes before 11:59 pm, July 19th!

NOTE: Registered readers can pick and customize their own Avatar for their account. Each age group program has some mini games available for readers to play within the READsquared software.
