

2026 Summer Reading Log

Log your reading minutes online through the Reader Zone software! You may use a computer or download the free app on both iOS and Android mobile devices.

1. Go to <https://www.readerzone.com/> or to the app store to download the app.
2. Create your account by selecting the “Don’t have an account? Register now” button, **or** login if you already have a Reader Zone account.
3. Parents, please create an account for yourself and your family by selecting “I am a Parent”. Register the adult first, then the children. The parent needs a user name and password, the children do not. A Reader account is where the reader manages the account themselves. (e.g. A high school reader who logs their own reading.)
4. Enter the Reading Program Code: **495ab**
5. Fill in the information requested for each person you are registering.
6. Make sure to write down your user name and password. The library staff does not have access to your login information.
7. Once you are registered you can sign into your account.
8. Log your reading minutes to earn virtual awards and track the tickets and incentives you earn!
9. If you complete all 10 Reading Levels, you can continue to enter your reading minutes through the end of the program.
10. The logging dates run from June 8 – July 22. Be sure to enter all your minutes before 11:59 pm, July 22!
