

READsquared

2024 Summer Reading Log

Log your reading minutes online through the READsquared software! You may use a computer or download the free app on both iOS and Android mobile devices.

1. Go to <https://freemanlibrary.readsquared.com> or to the app store to download the app.
2. Click on **Register** in the upper right-hand corner to create your account, **or** login if you already have a READsquared account.
3. Parents, please create an account for yourself and your family by clicking on the “Myself + Other Readers” button. Register the adult first, then the children. The parent needs a user name and password, the children do not.
4. New this year, there is now an option to sign up to receive text messages.
5. Fill in the information requested for each person you are registering.
6. Make sure to write down your user name and password. The library staff does not have access to your login information.
7. Once you are registered you can sign into your account.
8. Log your reading minutes to earn virtual badges and track the tickets and incentives you earn! Minutes and dates are required fields; book title and author are optional.
9. You are able to go in and retroactively enter minutes read within the active recording period. For example: if you only log in once a week, you can record minutes read for each day of that week. If you complete all the badges, you can continue to enter your reading minutes through the end of the program.
10. The logging dates run from June 10 – July 24. Be sure to enter all your minutes before 11:59 pm, July 24th!

NOTES: Registered readers can pick and customize their own Avatar for their account. Each age group program has mini games available for readers to play within the READsquared software. New this year, there is a Game Board feature which is a visual tracker of the participant’s progress.
